Atlas in PDF

Enclosed GIS Maps and the SPBA Project Database are also available as a separate product on DVD.

DVD
GIS Maps and
SPBA Database

The aim of the Atlas is to present a comprehensive and systematic overview of the results of over 150 years of petroleum exploration and research in the Southern Permian Basin area. The Atlas aims to stimulate the petroleum E&P industry to continue their activities in this mature basin. The subsurface characterisation provided in the Atlas will also be of great value to governments, researchers and other individuals interested in the deep subsurface. This publication is the definitive reference for the petroleum geology of the Southern Permian Basin area.

Contents Atlas (Print and PDF on DVD):

Chapter 1	<i>Introduction, stratigraphic framework and mapping</i>	Chapter 13	<i>Petroleum generation and migration</i>
Chapter 2	<i>Crustal structure and structural framework</i>	Chapter 14	<i>Licensing and exploration history</i>
Chapter 3	<i>Tectonic evolution</i>	Chapter 15	<i>Reserves and production history</i>
Chapter 4	<i>Pre-Devonian</i>	Chapter 16	<i>Applied geology</i>
Chapter 5	<i>Devonian</i>	Appendix 1	<i>Glossary</i>
Chapter 6	<i>Carboniferous</i>	Appendix 2	<i>GIS Maps presented in the Atlas and available on DVD</i>
Chapter 7	<i>Rotliegend</i>	Appendix 3	<i>SPBA oil and gasfields database</i>
Chapter 8	<i>Zechstein</i>	Appendix 4	<i>Units of measurement</i>
Chapter 9	<i>Triassic</i>	Appendix 5	<i>References</i>
Chapter 10	<i>Jurassic</i>		
Chapter 11	<i>Cretaceous</i>		
Chapter 12	<i>Cenozoic</i>		

Contents GIS Maps and SPBA Database:

- SPBA Project Database containing various types of spatial data: well, seismic, oil and gasfields, geochemical and gas composition
- GIS Maps presented in the Atlas, ready for import in Petrel and ArcGIS
- References in EndNote
