

## Invitation and Registration Details

### Queensland Australia – Minerals for Innovative Technologies and the future of Energy

---

**Tony Knight, Chief Geologist of Queensland**

*Hosted by*

**Linda Apelt, Agent General for Queensland, and Trade Commissioner – Europe, Trade & Investment Queensland**

*Chaired by*

**Dipl.-Geol, Siyamend Al Barazi, DERA (German Mineral Resources Agency)**

---

**WEDNESDAY 24 MARCH 2021 (9H - 10.30 CET)**

Webinar - Zoom

---

#### I N V I T A T I O N

The German Mineral Resources Agency (DERA) and Trade and Investment Queensland in association with the **Competence Centre for Mining Resources** at the German-Australian Chamber invite you to take part in a presentation and discussion focussed on the New Economy Minerals Strategy of in the State of Queensland, Australia.

His Excellency **Philip Green, Australian Ambassador** in Berlin, and **Dr Thomas Gäckle, Deputy Director-General Raw Materials Policy, Federal Ministry for Economic Affairs and Energy** will give the national context to bilateral activity in this field.

The event is also supported by **BDI, VRB, VDMA and Austrade**.

The great transitions currently underway in energy, industry and sustainability are driving rapid changes in global commodity supply, demand and investment dynamics. In demand terms they are pivotal in the shift to cleaner energy and improved technologies. In supply terms their extraction, processing and utilisation must address growing societal and investor requirement for that supply to be aligned with the principles of sustainable development, ethical sourcing and responsible operation.

Queensland's rich endowment of mineral and energy resources provides opportunity to both contribute to and benefit from the changes currently underway.

Please register for the event with Trade and Investment Queensland via the following link:
